

# LAWALL OFFERS

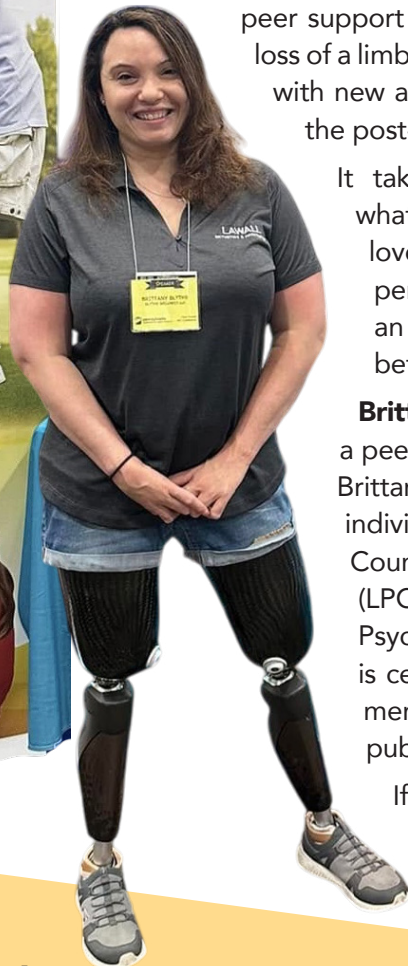

## Peer Support Mentors

BECAUSE LAWALL PROSTHETIC & ORTHOTIC SERVICES BELIEVES that peer support can be critical to recovery and readjustment, after the loss of a limb, we have Peer Support Mentors available to call or meet with new amputees to help them better understand and navigate the post-amputation rehab process.

It takes someone uniquely qualified to fully understand what it's like to live life with an amputation or to support a loved one with limb loss or limb difference. That's why the personal encouragement and information that comes from an experienced, well-trained peer support therapist can be better absorbed by an individual in this circumstance.

**Brittany Blythe, MA, NCC, CPV, LPC**, is just one example of a peer support mentor Lawall calls on to help new amputees. Brittany has a wealth of expertise and a passion to assist individuals with amputations. Brittany is a National Certified Counselor (NCC) and a Licensed Professional Counselor (LPC). She holds a Master of Arts Degree in Counseling Psychology with a concentration in Forensic Psychology and is certified in leadership development. In addition, she is a mental health therapist, life coach, disability advocate, and public speaker.

If you or someone you know had a need for one of our Peer Support Mentors, please contact the Lawall office closest to you to make arrangements.

### Lawall Provides Many Other Forms of Support

In addition to offering Peer Support Mentors, Lawall Prosthetic & Orthotic Services also provides the following for our patients:

-  On-call care available 24 hours per day, 365 days per year
-  Routine follow-up care provided
-  Access to patient mentors and support groups
-  House calls available for those with a need for in-home service
-  Outcome measurements to help focus on long term results
-  **TeamLawall**, a sports performance program designed to provide patients with opportunities to maintain their mobility and stay active
-  CEU classes offered for the patient's care team to encourage a team approach to care
